

Yes, that's right. I'm now going to show you the video that we have produced for the Churi.

Have fun. Everything gets more expensive. Food, traveling, housing and even healthcare. Actually,

the rising premiums of the health insurance is currently the number one concern amongst

Swiss citizens. This is why we came up with the following solution. We leverage AI. to

automate the process of always having the cheapest possible health insurance. We scan the existing

policy you already have and find the cheapest equivalent on the market. And we automatically

switch it for you. This is us.

And this is how we did it. We take your current policy and use AI to chat with the PDF to determine

your current benefits. It is zero effort for the user because everything happens in the

background. See for yourself.

we generate all the necessary documents you need to make the switch. We tested this with

our fellow friend Johnny. Johnny currently has a
